

Worksheet Native Ducks

(In answering this sheet, refer to the Native Ducks Species Sheet and Issues Sheet No. 3)

1. The five species of native ducks in the Species Sheet have a variety of habitat preferences for nesting and feeding. Draw an arrow to match the species with the preferred habitat below:

Mountain Ducks	Grey Teal	Chestnut Teal	Pacific Black Duck	Wood Ducks
Farm Dams	Mountain Lakes	Deep Fresh Water	Inland Swamps	Saltwater lakes/ estuaries

2. What are some of the common features of these five species of native ducks?

3. What types of food do native ducks eat? Does the diet of the five species vary?

4. What are some of the threats, both human-caused and natural, that these native ducks face?

5. On a blank piece of paper draw two different species of duck, showing what you found most interesting about them.
