

Worksheet

Bennetts Wallabies & Tasmanian Pademelons

(In answering this sheet, refer to the Bennetts Wallby and Tasmanian Pademelon Species Sheets, and Issues Sheets 5-7)

1. Do the wallabies and pademelons prefer to eat on their own or in groups? Are their preferences different?

Why?

- 2 How do pademelons move quickly between their resting and feeding areas?

3. Why are people a big threat to both of these species?

4. What can you do to make sure you are not acting as a threat to these animals?

5. On a blank piece of paper draw a wallaby or pademelon illustrating the fact you found most interesting.
